General marking guidance

- All candidates must receive the same treatment. Examiners must mark the last candidate in exactly the same way as they mark the first.
- Mark schemes should be applied positively. Candidates must be rewarded for what they have shown they can do rather than be penalised for omissions.
- Examiners should mark according to the mark scheme, not according to their perception of where the grade boundaries may lie.
- There is no ceiling on achievement. All marks in the mark scheme should be used appropriately.
- All the marks in the mark scheme are designed to be awarded. Examiners should always award full marks if deserved, i.e. if the answer matches the mark scheme. Examiners should also be prepared to award zero marks if the candidate's response is not worthy of credit according to the mark scheme.
- Where some judgement is required, mark schemes will provide the principles by which marks will be awarded and exemplification may be limited.
- When examiners are in doubt regarding the application of the mark scheme to a candidate's response, the team leader must be consulted.
- Crossed-out work should be marked **unless** the candidate has replaced it with an alternative response.

Instructions to examiners:

Two grids need to be applied when assessing a candidate's response:
Grid A: composition and Grid B: spelling, punctuation and grammar.

A candidate's composition may be appropriate for Level 1, but spelling, punctuation and grammar have weaknesses; or a candidate may have reasonably secure spelling, punctuation and grammar but be less successful in composition. It is essential, therefore, that both marking Grids A and B are applied independently.

When awarding a mark for composition (Grid A), examiners should use the first bullet point in each band in the mark scheme to decide on the overall level of achievement. The other three bullet points should be used to determine where best to place the response within the band.

When awarding a mark for spelling, punctuation and grammar (Grid B), examiners should make a 'best fit' judgement using the descriptors.
